

## Y-12's Cafeteria 'Dishes Out' 22,746,875 Hot Meals Since Opening; Sales Exceed \$9 Million

\* \* \* 6-11003 \* \* \*

A LEG OF LAMB is about to be cut up by Kent Patterson, on the electric meat saw. Pork chops and a loin of pork are seen on the block. Only the best (U.S. Choice and Good) meats are purchased for Y-12's use.

THIS VIEW SHOWS THE MAIN KITCHEN. Howard McClellan, cook, at left is preparing vegetables in an eighty gallon steam kettle while Tommy Goss, chef, is checking meat in one of the large broilers.

CHOW TIME IN THE LINE at Y-12's Cafeteria has Madeline Franklin and Charlotte Solomon at the cash register with their noon meals. Mayme Hundley tends the coffee-tea section, and Frances Brock operates the register.

A total 1200 guests for lunch is no trouble. If you don't believe it, call your wife right now and tell her that that many guests are coming for tomorrow's lunch. Y-12's Cafeteria, in continuous operation since June 13, 1943, has served a total of 22,746,875 guests for a total sales of \$9,224,382.00 through May 15, 1962.

Of course, Y-12's Cafeteria once operated on a 24-hour, round-the-clock basis. That was back in the old days when more than 22,000 employees crowded into Y-12. At that time the cafeterias were serving approximately 33,000 hot meals every 24 hours. Now lunch is served to approximately 1200 customers per day.

Actually, procedures at the Cafeteria follow any large-scale restaurant operations. The actual purchase of food is bought through normal purchasing channels with bids, etc. The only difference being the receiving. All foods are received by the Cafeteria stockkeeper. Canned goods and staples are ordered on a six months' basis, which is received every December and June 1. Frozen fruits, vegetables, fish and cheeses are all ordered and received on a monthly basis. Fresh fruit and produce are received weekly. Coffee, bread, milk, yeast and ice cream are delivered two or three times a week as per needs. These items are procured on an annual bid basis.

### Big Coffee Drinkers

Y-12ers consume an average 100 pounds of coffee a week... and this is not even the coffee season! At least 800 glasses of iced tea are consumed daily.

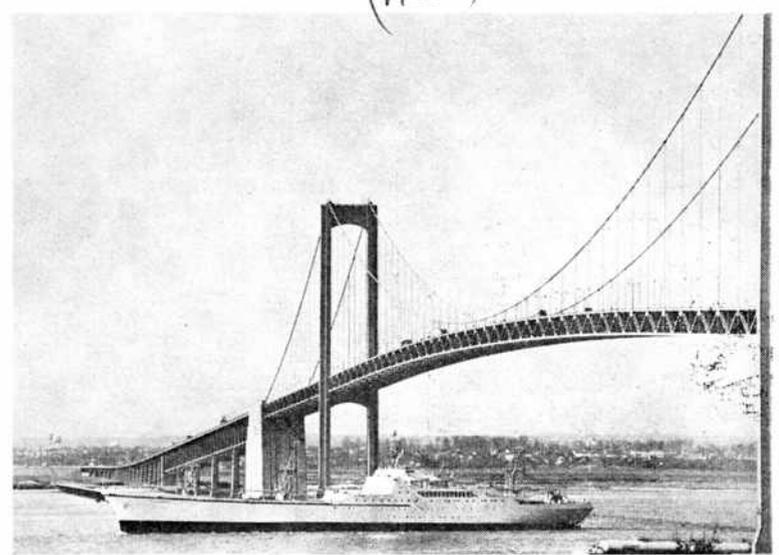

Everything eaten at the Cafeteria except sliced bread, and ice cream is prepared right here!

Favorite dishes eaten by Y-12ers are roast beef and vegetable soup. And corn bread is a high seller. (If a "Yankee" hasn't eaten corn pone when he comes to this area, he soon learns to like this native dish.)

### Two Freezer Rooms

Meat is purchased in bulk... that is, in a whole state. Two

THE N.S. SAVANNAH, the world's first nuclear cargo-passenger ship, passes under the Delaware River Memorial Bridge between Pennsylvania and New Jersey on the ship's first journey under its own power. Eddie Roberts, Y-12 Radiation Safety, is aboard the Savannah this week with a team of scientists and engineers for a measurement of the effectiveness of the biological shield of the nuclear vessel.

## Oak Ridge Engineers, Scientists Board NS Savannah For Test Run

### Eddie Roberts, Y-12's Radiation Safety, Helps Check Radiation On Nuclear Ship's Sea Cruise

The 22,000-ton NS Savannah, the world's first nuclear powered cargo-passenger ship is now on a 10-day test-run from Yorktown, Va. Boarding the Savannah Sunday, May 20, was Edmond Roberts Jr., Y-12's Radiation Safety Department, with a team of scientists and engineers from Oak Ridge. Their mission will be to measure the effectiveness of the biological shield on the N.S. Savannah.

A compact but highly sensitive package of detectors and instrumentation has been especially developed for this survey. Detectors and counting instrumentation are contained within a vanette, which was driven from Oak Ridge to Yorktown, hoisted aboard the Savannah, and tied down in one of its forward holds for the duration of the deep-water cruise off the Virginia coast. The vehicle and its equipment, known as the Mobile Shielding Laboratory No. 1, have been extensively proved in recent months in a series of studies of land-based reactors made for the Division of Compliance, U. S. Atomic Energy Commission, and has also taken part in the BREN tests in Nevada.

The shield survey voyage will be under the general supervision of E. P. Blizard, director of Oak Ridge National Laboratory's Neutron Physics Division.

### Original Savannah

One hundred and forty years ago this month, a 320-ton ship started an epoch-making voyage from Savannah, Ga. to Liverpool, England. She was the Savannah, the first vessel to use steam on a transatlantic crossing. The voyage required more than 29 days.

As the Savannah ushered in the Steam Age in ocean travel, it is fitting that another Savannah should usher in the Atomic Age in sea travel.

### Ship's Missions

The Savannah has five important missions:

First, to demonstrate to the world the employment of nuclear power in an instrument of peace for the benefit of mankind.

To bring the power of the atom into the market places of the world in peaceful trade and commerce.

To enlighten the public to the fact that nuclear-powered ships are entirely dependable and safe. To stimulate early solutions to

Eddie Roberts Jr.

such problems as international liability and indemnification, and, win for nuclear ships, acceptance in the world's ports.

And finally, to give the Maritime Administration and the AEC the opportunity for prudently assessing the possible contributions of atomic power to the progress of the American Merchant Marine in providing shipping service.

### SAFETY SCOREBOARD

The Y-12 Plant Has Operated 60 Days Or 1,998,000 Man-Hours (Unofficial Estimate) Without A Disabling Injury Through May 20 Phone 7755 For Daily Report On Accident-Free Hours

# The Bulletin

Published Weekly By And For  
Y-12 Employees Of  
UNION CARBIDE  
NUCLEAR COMPANY  
Division of

UNION CARBIDE CORPORATION

JAMES A. YOUNG Editor

OFFICE  
Post Office Box Y  
Oak Ridge, Tenn.  
Bldg. 9704-2 Room 149  
Telephone 7109

Next Wednesday, May 30, is an official holiday in Y-12. Originally honoring those who gave "the last full measure" in the Grand Army of the Republic, Memorial Day has come to honor all the nation's dead who gave their lives in its defense.

No employees will be required to work except those needed for the protection and continuous operation of the plant. The Bulletin will probably be delayed in the mails next week as the U. S. Post Office employees will also observe the holiday.

## Welding Society's Social Saturday

The Oak Ridge section of the American Welding Society is holding its May social Saturday, May 26 at the C'est Bon Club, Knoxville. The social hour is set for 6:30, with dinner scheduled at 7:30 p.m.

The filet mignon dinner is \$8 per couple for non-members of the AWS, and \$5 per member couple. Dancing is included in the dinner charge.

Advance tickets may be obtained from Tom Rutkay, Jerry Gilliland, Clyde Hawkins, or Jim Thorpe. Tickets may also be obtained at the door prior to the dinner.

Installation of new officers will take place at the social, set in the Lancelot Room of the Club. Y-12er Frank Lambert has been elected chairman and Don Scott, vice chairman.

Car pool member wanted from Cumberland Estates section, Knoxville, to North Portal, straight day. R. A. Riordan, plant phone 7-8265, home phone Knoxville 588-2298.

Ride wanted from 125 Parsons Road, Oak Ridge, to West or Central Portal, straight day. Sue Davidson, plant phone 7-8297, home phone Oak Ridge 483-6227.

## Rensselaer's Russell Leads Physics Seminar

This week's Oak Ridge National Laboratory Physics Division seminar is announced as "RPI-ORNL Neutron Capture Cross Section Program." Leading the seminar will be J. E. Russell, Rensselaer Polytechnic Institute, Troy, N. Y.

The seminar will be held in the East Auditorium, of ORNL's 4500 Building, at 3:15 p.m. Friday, May 25, and is open to all interested technical personnel.

Looking for a Christmas present for someone who has everything? Well, here's a suggestion. The Library of Congress has a transcript on microfilm of the 340 meetings at Geneva between the West and the Soviet Union on a nuclear test ban. The price: \$65.

There's something that is at least different!

Nobody in Y-12 is looking for Christmas bargains yet, but they are busy on vacations and what have you. Let's start off with

### TECHNICAL

Production Inspection is welcomed into the news column after a long absence. First off, it's L. K. Dickey vacationing, probably in Alabammy . . . J. C. Graves is recuperating from a knee injury and best wishes are sent to the Oak Ridge Hospital to him . . . Word is going around that since Jimmy Rolston has a luxurious new car, he won't speak to some of his old friends. It's also rumored that he may be having a little transmission problem.

Kenneth David King

Congratulations to proud papa C. K. King, Production Inspection, on the birth of his son, eight and one-half pound Kenneth David. Little Kenneth arrived at St. Mary's Hospital, Knoxville. Both mama and baby are fine, and papa is recuperating.

Beta Four Special Projects gave a belated fare-thee-well party for Nelson Van Wie (with countdown postponed a couple of times because of unfavorable conditions). It started on the night of the big Y-12 wingding. The group had their own little satellite party. The event was launched from the pad of Lois and Nelson Van Wie, Knoxville. Preparations for the blast were executed by Margaret Williams, and Connie and Alex Varlan. First stage participants included Shirley and Jim Dodson, Virginia and Stan Hull, Marion and Ed Fleischman. Second stage boosters included Jerry and Ralph Vaughan (newcomers to the group), Wilma and George Drevik, Jeanne and Ed Cothron. Third stage acceleration was provided by Peg and Ken Bernander. Stabilizers and retro-rocketeers were Terry and George McGown, and Erlene and Dick Cawood.

Overlooking a few minor mis-maps, successful orbit was attained and maintained and the signals were heard loud and clear.

I think we're right to race  
To conquer outer space.  
But when it comes to blastoff  
I want to be the last off.

### SHIFT SUPERINTENDENTS AND UTILITIES

On the ailing list is H. B. Davis and best wishes to him for a speedy recovery . . . E. A. Wells visited relatives in Knoxville on his vacation, spent the rest of his time on the lake, which is not too bad an idea (Let's go!) . . . L. M. Kittrell decided just to take it easy, and rest . . . G. M. Martin vacationed in his cabin on Center Hill Lake . . . L. Ellison visited his parents in Middlesboro, Ky.

Long week-enders had J. D. Tolliver visiting relatives in Williamsburg, Ky. . . J. A. McCall shopped for a new car to go

with the new tractor he recently acquired.

You'd better profit by other people's mistakes. You can't possibly live long enough to make all of them yourself!

### MECHANICAL OPERATIONS

Production Control reports Harold Babb taking in the Tool Show in Cleveland . . . Bob Harris took in the Jaycee Convention in Memphis . . . Folks are going to miss Wayne Schrader's smiling face since he transferred to Tool Engineering.

Welcome back to Lucy Parker who returned to her old job and good luck to Fay Duncan who is transferring to Z Area and Dispatching . . . Get well wishes to Greeta Luallen who underwent surgery in Oak Ridge Hospital recently . . . Judy Tiller is pinching for Greeta among the reqs. Greeta is at home in Clinton now recuperating and is looking forward to returning to work in those new duds which her many friends in Y-12 gave her as a get-well gift . . . M. B. Stringfellow was called to Arkansas due to the serious illness of his father . . . our best wishes go with him.

Ray Curtis and his family escaped injury when his car's brakes failed and he went zooming into a mountain. His car didn't have such good luck, though . . . News comes from Kathy Mills at Carter Field, Fort Worth, Texas that she is really enjoying the Stewardess School.

Marvin D. Bates, Jr.

Meet Marvin D. Bates Jr., son of Mr. and Mrs. Marvin D. Bates. His father is in Y-12's General Machine Shop. Young Marvin just completed 12 weeks basic training at the U. S. Naval Training Center at San Diego, Calif., and after spending two weeks with his family in Oak Ridge, has returned to duty at the naval base at Pensacola, Fla. Forming informs that J. O. Parker is off for a two weeks' vacation in Florida, combining business and pleasure . . . the business is visiting relatives, and the pleasure of Florida's sunshine and activities . . . Sympathy to J. T. Dobbs whose father died May 14 in Somerset, Ky. . . D. E. Gilliam took off on vacation to parts unknown.

Enjoying the swing her daddy put up in the back yard is little Lee Ann Vaughan, 18-month-old daughter of Jerry and Ralph Vaughan. Ralph is presently in Beta Four's Heavy Machine Shop. Other Shop news has Homer Day with the sure knowledge that dogs and shoes don't mix . . . Homer had a new pair of shoes and set them down in the doorway of the basement while he worked in his wife's garden. He

Lee Ann Vaughan

noticed the pup playing and tossing something up in the air and catching it. And when he finished and went to get his new shoes the dog had carried one of them off and chewed it up . . . The welcome mat is out for E. D. Bryant, C. W. Goodin, E. L. Douglas, T. H. Fox, L. Johnson, and F. A. Watson who all transferred in from Sunflower.

Sympathy is extended to M. R. Elrod, whose father died recently.

The boys in Alpha Five are wishing P. O. Murphy and J. A. Myers a speedy recovery. Both have been in the hospital for some time now . . . Sympathy is extended to Hoyt Nelson whose father passed away recently in Knoxville.

Sharon, Nancy and Paula

These three young ladies all dressed up in their Sunday finery turned out Mother's Day to look their very best for ma. They are Sharon, age 10; Nancy, six; and the little cutie on the end, Paula, age four. They are the daughters of Mary Farr, Beta Four, and Bill Farr, Stores . . . Mildred Morris, Beta Four, wants to know if the zone numbers in Y-12 mean that we've all been annexed. More than likely, Mildred, more than likely. (Your other pictures will probably be in next week. Thanks.)

Just think, these are the good old days we'll be missing about 1995!

### MAINTENANCE

Area Five Maintenance has D. W. Bennett and family vacationing in Florida visiting friends on the west coast and his family in Orlando . . . J. C. Knisley went to Georgia to fish and to visit relatives, not necessarily in that order.

The big rodeo Electrical has been buzzing about has come and gone. Some fellow carried home prizes and some just fish. It's told that Virgil Lovett caught his limit in bass in a secret spot. Dave Turner carried home a Coleman lantern which was the dock prize . . . Jim Poe won the door prize, a rain suit, and the following won for fish caught: Ed Poe, boat

## Y-12ers Celebrating 15, 10 Year Anniversaries

Congratulations to the following Y-12ers who will observe 15 and 10-year anniversaries with Carbide within the next few days.

### 15 YEARS

Clyde J. Marrow, Chemical Department, May 24.

Graham Boggs, Buildings and Grounds, May 26.

Gus Craige, Area Five Maintenance, May 26.

Arthur F. Ogden, Sr., Buildings and Grounds, May 26.

Thomas Chambers, Beta Two, May 27.

Oscar Smith, Buildings and Grounds, May 28.

### 10 YEARS

Bonnie T. Shupert, General Machine Shop, May 23.

William Justice, Dispatching, May 23.

Dewey Stevens, Utilities, May 26.

Thomas C. Little, Product Processing, May 26.

Get well wishes are sent to the following Y-12ers who were patients last week in the Oak Ridge Hospital:

Lester P. Parrett, Area Five Maintenance; George R. Switzer, Alloy Shop; Paul B. Petretzky, Chemical; John F. Chamblee, Alpha Four Cascade Operations; Harry W. Bowles Jr., General Machine Shop; Emory E. Burns, General Machine Shop; George R. Brown, Laboratory Operations; Desmond C. Bowen, Steam Plant; Colleen Shotts, Product Processing.

seat, smallmouth bass . . . Jim O'Kain, insulated under wear, largemouth bass . . . L. R. Bailey, fish basket, crappie . . . Virgil Callaway, dip net, bream . . . Louis Hutchins, minnow trap, blue cat . . . Sorry no trout was taken, maybe next time.

Other news from Electrical has L. J. Adkisson, W. D. Brock and W. N. Reed all hunting the big ones while on vacation . . . Also away are C. R. Wardell and W. A. McFarland . . . Sympathy is extended to F. R. Hunt and family in the recent death of his brother, Bill Hunt, who was drowned in an attempt to rescue a child at Cape Canaveral, Fla.

You can always tell a Harvard man, but you can't tell him much.

### FINANCE AND MATERIALS

Plant Records has Evelyn Crouse vacationing at home in Concord, with a trip to Marion, Va. planned . . . Vacationers from Timekeeping had Roy Hale at home in Powell; Glenn Kindred at home in Rockwood; and J. E. Shell likewise in Oak Ridge.

Cashier and Travel had Rubye Lucas on a vacation recently to Charleston, S. C.

Traffic had a vacationer also . . . Jackie Tankersley went to Washington and points East.

Tom Narcrosse, Property, and wife Laura, of Communications, vacationed at home while Miss Connie Narcrosse, Tom's sister, visited from St. Louis.

Love your neighbor as yourself but don't take down your fence . . . Sandburg.

### INDUSTRIAL RELATIONS

The Fire and Guard Department is welcoming back B. F. Robinette after a bout with the bug . . . Get well wishes to E. E. Gregory, who suffered two broken ribs recently diving from a diving board . . . Get well wishes to the wives of H. J. Gregory and H. L. Montooth.

You'uns come.

# Y-12 'Dresses Up' In Best Bib And Tuck For Gala Dance

## Y-12 SPRING

# DANCE

SPRING DANCERS TURNED OUT in masses to greet the season as Y-12 staged its annual Spring Dance, Friday, May 11 at the Oak Terrace, Oak Ridge. In picture A (reading from left) are Plant Superintendent Robert G. Jordan; Mrs. Betty DeLaney (wife of E. J., Forming); Dee Oakes (wife of Oscar Oakes, Sunflower Shop); Ira Shotts, Timekeeping; and Carol Houser, Benefit Plans, who did the drawing for the door prizes. B . . . Bill Irwin, Evelyn Payne, standing Francis and Ralph Ford, Harold Payne, Betty Irwin, Mary Thompson, Larry

and Mary Lambeth, Ted and Ruby Goodwin, and Jim Thompson enjoy a moment's rest. C . . . Also waiting one out are Norman and Donna Lou Abbott, Marie Moran, Bettie and Todd Kleinstauber, Frank Moran, E. D. and Marcella Spangler, Rachel and Ira Shotts. D . . . Mrs. George Strasser, Carol Houser, Mrs. Robert Jordan, Mrs. Jack Case, George Strasser, Jack Case, Mr. and Mrs. Dan Rader, Mr. and Mrs. Spears

Valalides rest between dances. Superintendent Jordan stands behind the table. E . . . Seen entering the ballroom are Mildred and Buddy Scott; Cleon and Pat Hartman. F . . . J. E. Campbell issues tickets to the Valalideses and the Raders. G . . . Seated clock-wise are Pat Hitchcock, Doris Lay, Doris Drips, Dee and Oscar Oakes, Joe Jernigan and Maxine, and Bill Leak. Standing looking for a place to sit are John Lay, James Drips, Joyce Stone, Bill and Priscilla Deacon and Tony Hitchcock. H . . . Newly engaged Gloria Williams and Bill Bryson, who announced their coming marriage at the dance. I. and J. Unidentified couples who got their table split in half due to space.

# Y-12's E Wingers Take Early Lead In Slo Pitch League With Two Wins

## Tie With ORGDP Kentucky Wonders By Wins Over Whiffers And Tabs, Both From Y-12

Action last week in the Slo Pitch League for Carbiders got into high gear as the 10-team race started. Y-12 has six teams in the league; the Oak Ridge Gaseous Diffusion Plant has four.

Last Tuesday night at Pine-wood, the Y-12 Generals fell to ORGDP's Codgers to the tune of 15 to 2. For the Generals, Fields homered, and Gibson had a double for the only multiple-based hits for the losers. For the Codgers it was Keith with two homers and Henderson with one; Roach, Corn, Clay and Iacovino with doubles each.

Line Scores	R	H	E
Codgers	15	16	2
Generals	2	4	5

Batteries: Codgers: Iacovino-Johnson; Generals: Hensley-Brendell.

Two ORGDP teams clashed also Tuesday as the mighty Kentucky Wonders swamped the Fly Swatters 19 to 3. For the Wonders it was Martin, Harris, Woodfin with homers, Woy with two and Neir with two. Homers for the Swatters saw Slattery come through with one.

Line Scores	R	H	E
Kentucky Wonders	19	19	1
Fly Swatters	3	9	1

Batteries: Kentucky Wonders: Fourman-Harris; Fly Swatters: Box-Love.

At Jefferson Tuesday, the Tabs trimmed the Atoms 21 to 15 as the two Y-12 teams fought it out. Davis and Bowman hit homers for the Atoms. Even though the Tabs won, they registered no many-based hits.

Line Scores	R	H	E
Atoms	15	19	1
Atoms	21	22	1

Batteries: Tabs: Ryder-Jones; Atoms: Cochran-Hill.

Y-12's E Wingers smothered the Whiffers from ORGDP by the one-sided score of 23 to 1. C. Shotts had a triple, while almost everybody on the E Winger team got a double or two.

Line Scores	R	H	E
E Wingers	23	22	1
Whiffers	1	5	9

Batteries: E Wingers: Hagood-Shotts and Wright-Leek; Whiffers: Howell-Perry.

Thursday's action saw the two ORGDP teams clash as the Kentucky Wonders eked by with a 6 to 5 victory over the Codgers. For the Wonders, it was a homer each from the three Harris boys, for the Codgers it was Keith and Cox.

Line Scores	R	H	E
Kentucky Wonders	6	11	1
Codgers	5	10	1

Batteries: Wonders: Fourman-G. Harris; Codgers: Hammes-Johnson.

Y-12's E Wingers, developing into quite a power, hit the Tabs hard 11 to 6 Thursday at Jefferson. For the Tabs it was Jones with a 4-bagger; for the Wingers it was Smith, Hardy and Hyatt.

Line Scores	R	H	E
E Wingers	11	24	1
Atoms	6	22	1

Batteries: E Wingers: Hagood-Minge; Tabs: Ryder-Jones.

Thursday at Pinewood, Y-12's Eagles clipped the wings of Y-12's Shifters three to two in a close one. Maddox homered for the Shifters while Pridgeon tripled for the winning Eagles.

Line Scores	R	H	E
Eagles	3	8	1
Shifters	2	5	1

Batteries: Eagles: Friar-Hulse; Shifters: Rutherford-Perkins.

Also at Pinewood Thursday, it was two ORGDP teams clashing, as the Flyswatters swatted the Whiffers 10 to 6. The Swatters

# Brewster-Bahler Top Skeet Race

## New League Being Formed For Summer

Final league standings have been posted in the All Carbide Skeet League. Y-12's Carl Brewster and ORGDP's Ken Bahler took top standings with a total of 4604.869 points . . . while Y-12ers Don Pitt and Avis Collins captured second place.

In final firings Bill Brundage took high individual scratch scores with 179/200; Carl Brewster was top handicap shooter with 2316.114/2400.

A new summer league will begin Sunday, May 27. All Carbide employees interested in shotgun firings are invited to participate in the summer league. Beginners are also welcome, and instructions will be provided on the grounds. Competition in the summer play will be on an individual basis.

Prizes will be awarded in both scratch and handicap classes.

Shootings will take place every other Sunday at the Oak Ridge Sportsman's Association Skeet Field in West Oak Ridge.

Fred Welfare, extension 7-8315, or Finis Patton, extension 8-9656 will be available for further information for interested skeeters.

Final league standings follow:

Team	Points
Bahler-Brewster	4604.869
Pitt-Collins	4591.818
Patterson-Murray	4589.007
Sahr-Steward	4560.336
Case-Hamby	4557.577
Brundage-Bell	4545.665
Swartout-Welfare	4542.680
Wiest-Tunnell	4541.990
Davy-Asmanes	4539.677
McNabb-Montgomery	4456.070
Hodges-Patton	4244.749

## CO-ED TEMPERANCE

In nearby Harriman, a college was founded in 1893, on the principles of temperance and prohibition. The co-educational school attracted students from many states, but soon passed into oblivion.

swatted out homers as Cates got two, and Slattery and Carter each got one. Elrod got a 4-bagger for the Whiffers, while Graham tripled.

Line Scores	R	H	E
Flyswatters	10	9	1
Whiffers	6	10	1

Batteries: Flyswatters: Box-Love; Whiffers: Perry-Howell.

League standings follow:

Team	W	L
E Wingers	2	0
Kentucky Wonders	2	0
Eagles	1	0
Atoms	1	0
Whiffers	1	1
Codgers	1	1
Fly Swatters	1	1
Atoms	0	1
Generals	0	1
Shifters	0	1
Whiffers	0	2

# Y-12 Cafeteria

Continued From Page 1  
 giant freezer rooms that average 10° below zero keep the meat fresh. Another 40° box is for cheese, butter and vegetables. One of the large freezer rooms can be converted into a 40° box if the need arises.

A total 21 employees keep the food coming at the Cafeteria. Most of these employees have been in the food business a long time. Old-timers include four that have been with the Cafeteria since 1943, eight since 1944, and two in 1947.

## Inventory Every Month

On the last work day of every month a physical inventory is taken. This physical inventory is then checked against the perpetual inventory.

Staggering the shifts, the bakers work from 6 a.m. until 2:30 p.m.; the cooks, salad makers and counter attendants work from 7 until 3:30; the general force and office personnel work the regular 8 to 4:30 shift.

Cafeteria hours are from 11 a.m. until 1:30 p.m. with a hot sandwich line open from 12:30 until 1:30 p.m.

## Special Luncheons

The Cafeteria is equipped to provide special lunches for visitors to the plant . . . either on a served basis or buffet style. Both types of service are used. The smaller dining room is converted into a private room for these special luncheon groups.

Also coming under jurisdiction of the Cafeteria is the modern conference room, which will seat 100 people. It is equipped with a projection room which has a movie projector and two slide projectors as well as a theater-sized screen. The room is frequently used for supervisory conferences, safety meetings, and such.

The Cafeteria handles all service and maintenance calls for the automatic vending machines throughout the plant. There are approximately 260 vending machines in 37 locations in Y-12.

## Hot Lunch A Luxury

The convenience and comfort of a hot lunch every day in Y-12 is often taken for granted. Hot soups, vegetables, and tasty meat dishes are good substitutes for cold packed lunches and dietary concoctions.

One of the favorite bakery products is fruit pies. One of the latest new favorites is the addition of chocolate chess pie. Cream and custard pies are also high on the list of favorites.

The up-to-date equipment is always kept in spotless condition. The State of Tennessee requires food handlers to take an annual physical examination. Y-12 Cafeteria workers take this examination every six months.

And, since so many of them have been there so long, it is obvious personnel like to work in the Cafeteria. The preparation of food is best done if the participant likes what he is doing . . . any good chef will testify to this.

## Non-Profit Operations

Y-12's Cafeteria operates on a non-profit basis with the most wholesome and best food available to employees at the least possible cost. FM music is piped throughout the Cafeteria during mealtime, but it is usually drowned out by the happy hum of busy eaters.

The Cafeteria is under the direction of George McNamee, a 19-year Y-12 veteran. Verna Peckman, another old-time Y-12er, does all the clerical and accounting work. The Cafeteria is a part of the Employee Services section of the Industrial Relations Division.

## WHO DO VOODOO?

After centuries of scoffing at primitive medicine, scientists are now combing the jungles, seeking the witch doctors' secrets. From some ancient plants and tribal cures modern medical miracles are sometimes yielded.

Avoid loose talk.

FORMING PIE TOPS FROM the automatic rolling machine is head baker L. D. Scott. Gene Colvard puts the pie tops in place. On this particular day the bakers were specializing in blackberry pie. Fruit pies are high on the list of favorites among Y-12ers.

6-11002

SALAD PREPARATION IS PERFORMED here by Frankie Goss, as the crisp, fresh vegetables are cut for the salads. A popular item among diet-conscious Y-12ers is a special salad plate with a full bowl of garden greens, plus cheeses and meats. The 40-degree box keeps the fresh produce crisp and cool.

# NSS Savannah

Continued From Page 1  
 ices on routes essential for maintaining the flow of the foreign commerce of the United States.

## \$20 Million Ship

The keel was laid by Mrs. Richard M. Nixon, wife of the then vice president of the United States, and the Savannah was christened by Mrs. Dwight D. Eisenhower. The \$20 million vessel is fitted with three complete decks. Ten main transverse, watertight bulkheads divide the ship into 11 thwart - ship compartments. The hull is built on a transverse framing system except for the inner-bottom. The ship will carry 60 passengers, a crew of about 110, and about 10,000 tons of dry cargo.

Her cruising speed is 21 knots developed with a normal output of 20,000 shaft horsepower. The single screw, passenger-cargo ship has an overall length of 595 feet, six inches.

Roberts, or Eddie as he is better known, is a native of Rockwood, Tenn. He is a graduate of Tennessee Polytechnic Institute, Cookeville, Tenn. The Health Physicist is a US Army veteran. Too bad, he wasn't in the Navy, he could have used some "sea-leg" experience just now.

## All Carbide Horseshoe League Opens Thursday

The All Carbide Horseshoe League gets underway tomorrow, Thursday, May 24, at 7:30 p.m. at the Jackson Square Courts, Oak Ridge. All teams entered will be eligible to draw for a fly rod to be given away at the opening session. Pairs may still enter by calling Recreation, extension 7109.

# Golf Tournament Set At Maryville Saturday, May 26

Y-12 golfers are all set for their Saturday, May 26 tournament at the Green Meadow Country Club, Maryville. More than 35 foursomes had filled tee-off times by press' time. Recreation did, however, state that other golfers wishing in the tournament might get squeezed in somewhere.

The tournament starts at 6:30 a.m. Saturday, and it is again requested that golfers appear 20 minutes before their scheduled tee-off times.

Other tournaments listed for the remaining part of the summer are as follows: June 30, Gatlinburg . . . July 28, Niota . . . August 25, Gatlinburg again. Details on these tournaments will be published in later issues of the Bulletin.

With the record-breaking turnout at Beaver Brook last month, and with the relatively low scores fired, it looks like a big season in Y-12 as far as golf is concerned.

## Lo! . . . There Is Land In The Y-12 Plant!

In one of the most-fun-to-do articles ever placed in the Bulletin, recently it was stated: Four Akers work in Y-12, four Fields, but absolutely no land! It would have made a much better statement (and besides that, it would have been accurate) to state that there is Land in Y-12. T. C. Land, Area Five Maintenance, is very much in Y-12. The author of the little piece apologizes to Land for myopic vision that caused this omission.
