

Seller shall be responsible for safeguarding all Unclassified Controlled Information (CUI), proprietary information, and materials in connection with the performance of the work under this subcontract and in accordance with the CNS CUI Program. Seller shall protect against sabotage, espionage, loss, and theft of CUI, proprietary information and/or materials in Seller's possession. CUI and proprietary information includes, but is not limited to, information classified as Unclassified Controlled Nuclear Information (UCNI) and Official Use Only (OUO) in accordance with the U.S. Department of Energy/National Nuclear Security Administration (DOE/NNSA) Information Security Program and the CNS CUI Program.

Seller shall:

- (a) Complete the requisite briefing and certification (for CUI) provided by the Subcontract Technical Representative (STR), a CNS Information Security Officer, or designee;
- (b) ensure CUI is granted only to persons with a need to know and is not released without review for release restrictions;
- (c) ensure CUI is never released to foreign nationals;
- (d) ensure that CUI information is not placed on Seller computing equipment without prior certification by CNS;
- (e) notify the Subcontract Administrator or CNS Plant Shift Superintendent of any security breach immediately;
- (f) be responsible for recognizing the sensitivity of information before it is used, processed, or stored on an information system;
- (g) certify to the STR that any CUI documents, materials, or information storage media (disk drives, thumb drives, hard drives) in Seller's possession or in the possession of any person under the Seller's control in connection with the performance of this subcontract are returned to the STR in conformance with the specifications upon completion of the subcontract.
- (h) **Flow these requirements down to all lower-tier subcontractors and suppliers.**
